

Beanstack

**Quick Tips
to get started
Tracker App**

Beanstack Tracker App

1. Download the [Beanstack Tracker App](#) from either the App Store (Apple) or Google Play (Android).

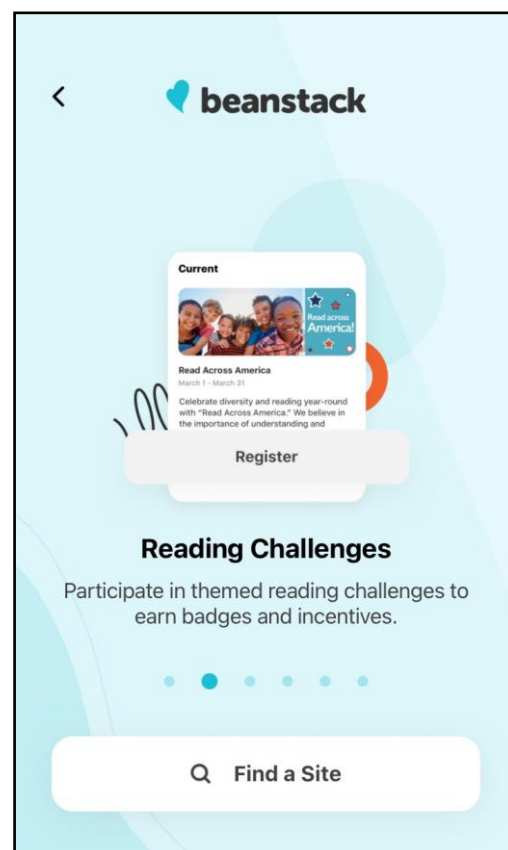

The first screen that you will see is the following screen.

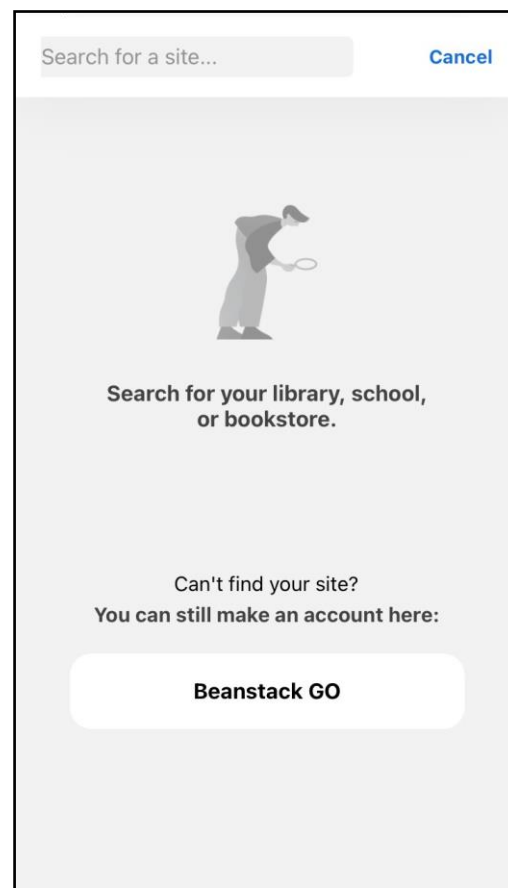

2. Click on [Yup!](#)

Beanstack Tracker App

3. The second screen will look like this. Click in the *Find a Site* box.

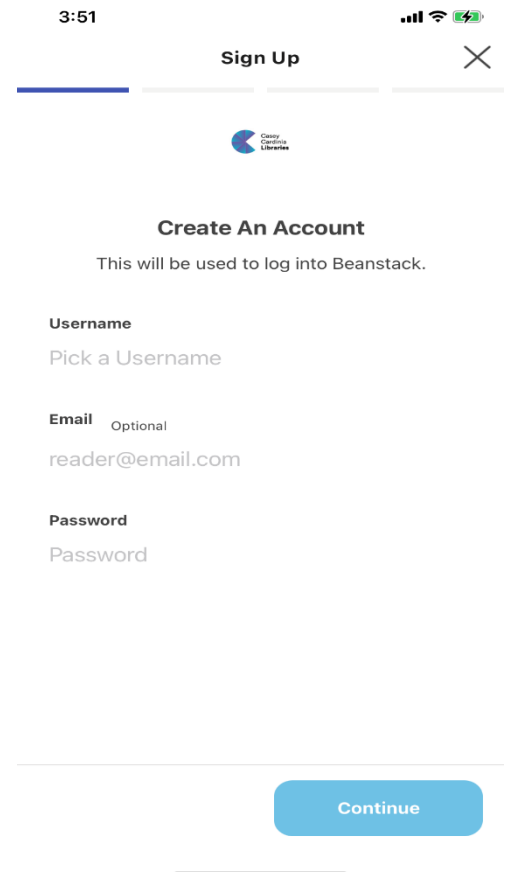

4. Then type *Casey Cardinia* into the *Beanstack GO* box.

Beanstack Tracker App

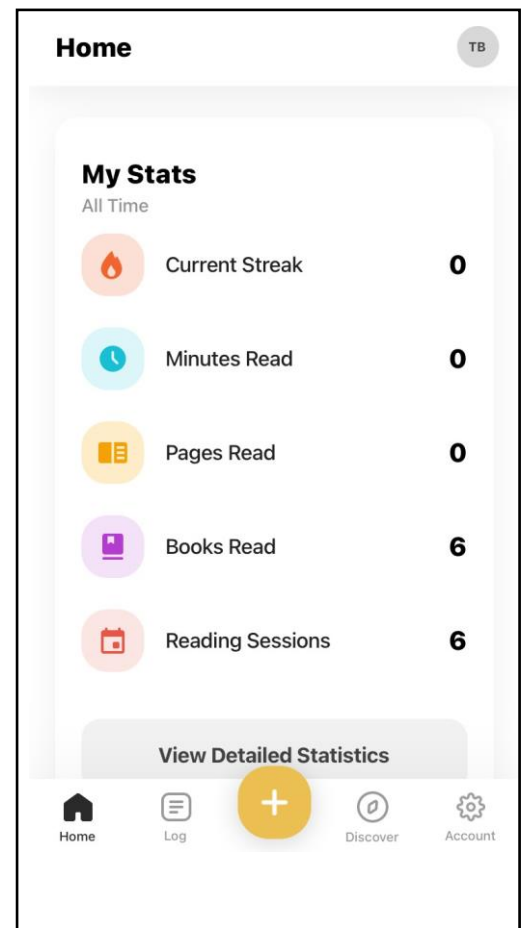

5. Next you can either *Sign In* to your Beanstack account (if you already have one), or Create an Account by clicking on *Sign-up!* below the blue Sign In button.

The screenshot shows the 'Sign Up' screen of the Beanstack app. At the top, the status bar displays the time 3:51, signal strength, Wi-Fi, and battery level. The title 'Sign Up' is centered at the top with a close button (X) on the right. Below the title is the Beanstack logo. The main heading is 'Create An Account' with a subtext 'This will be used to log into Beanstack.' Below this are three input fields: 'Username' with the placeholder 'Pick a Username', 'Email' with the placeholder 'reader@email.com' and a note 'Optional', and 'Password' with the placeholder 'Password'. At the bottom right is a blue 'Continue' button.

6. This is the Home Screen.

If you scroll down the page you will get an overview of your account: recent titles logged, current challenges you are participating in, my badges (earned), my activities (completed), and my reviews.

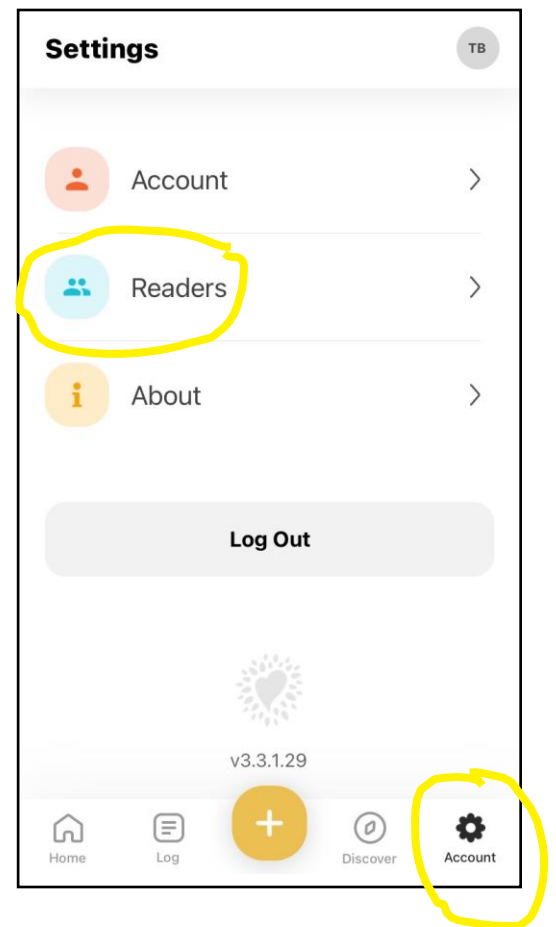

The screenshot shows the 'Home' screen of the Beanstack app. The title 'Home' is at the top left, and a user profile icon 'TB' is at the top right. Below the title is a 'My Stats' section with the subtitle 'All Time'. It contains five rows of statistics, each with a colored icon, a label, and a value:

Icon	Label	Value
🔥	Current Streak	0
🕒	Minutes Read	0
📖	Pages Read	0
📚	Books Read	6
📅	Reading Sessions	6

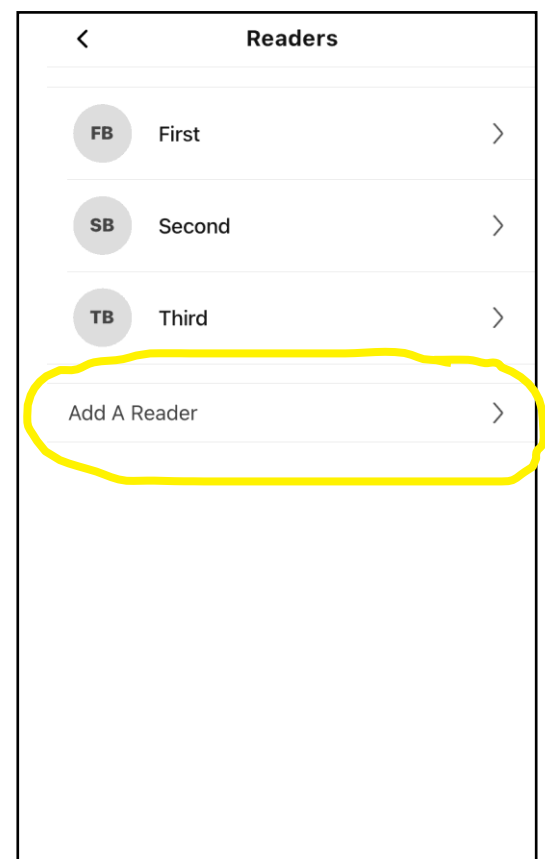

Below the statistics is a button labeled 'View Detailed Statistics'. At the bottom is a navigation bar with four icons: Home (house), Log (list), a large yellow plus sign, Discover (magnifying glass), and Account (gear).

Beanstack Tracker App

7. To add *Readers* to your account, the *Account Creator* (you) will click on the [Account Cog](#) and then the [Readers](#) option. You can also edit your personal information here.

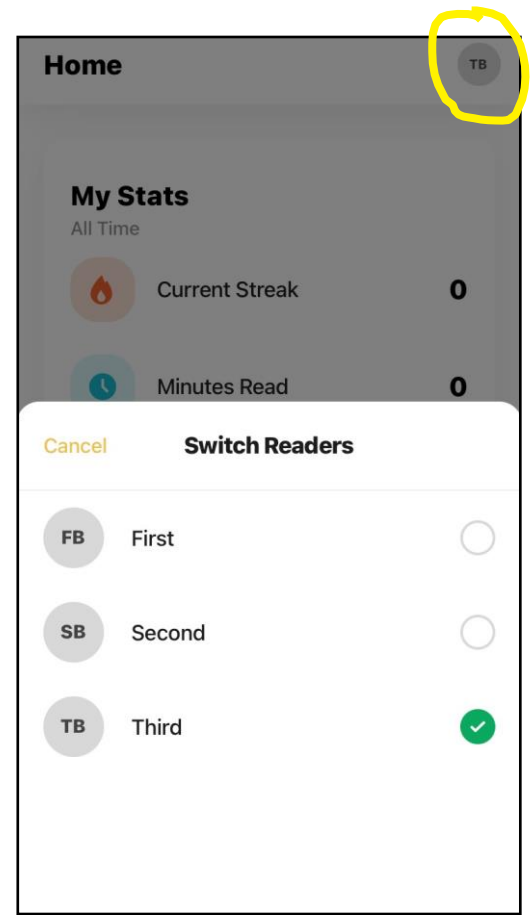

8. Add as many additional *Readers* as needed by clicking on [Add A Reader](#).

Beanstack Tracker App

9. To [switch between Readers](#) in an account, simply click on the circular icon in the top right-hand corner. This icon will display the initials of the *Account Creator / Reader*. Then select which *Reader's* account you want to access.

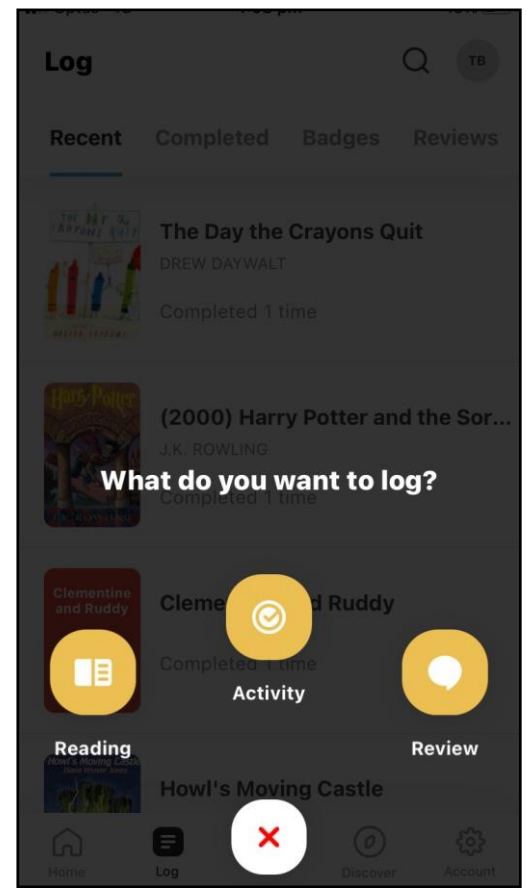

10. To find available reading challenges, click on the [Discover](#) icon (next to the yellow plus symbol).

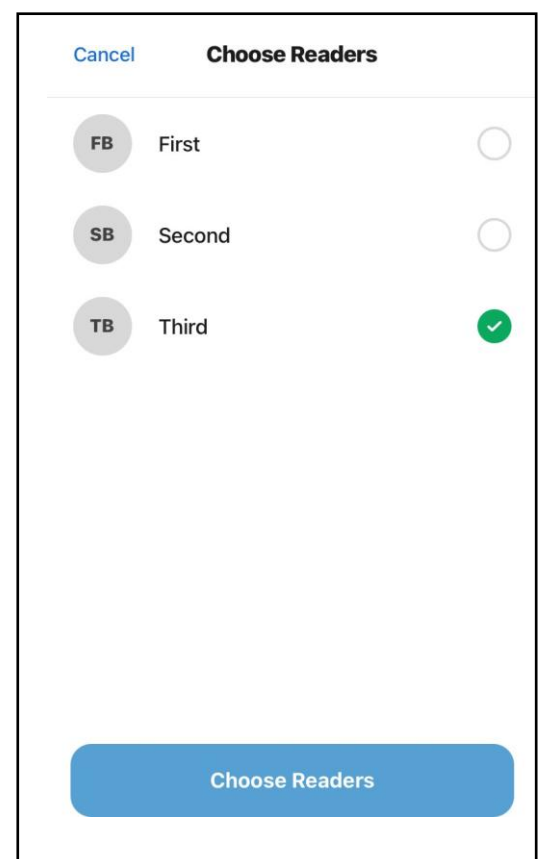

Beanstack Tracker App

11. The yellow **+** icon is the fastest way to log reading, activities or book reviews. It has changed to a red cross in this image.

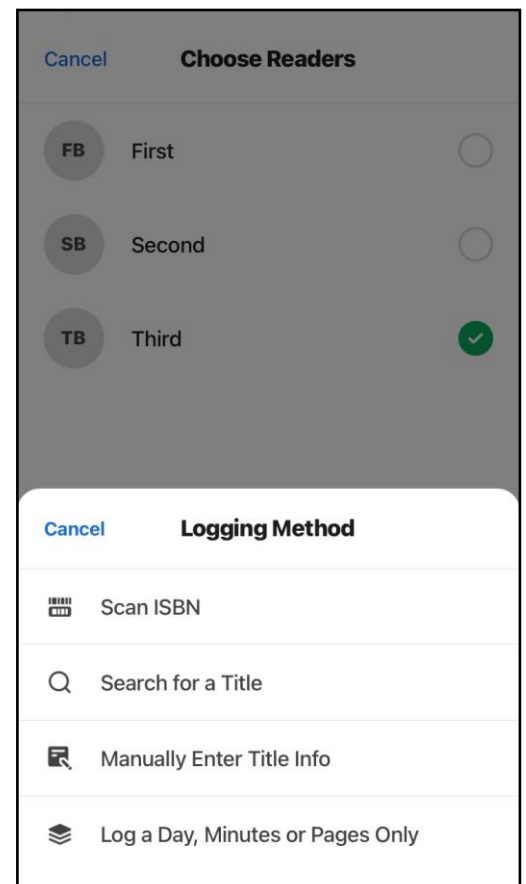

12. Once you select what you want to log, you will be asked to select which *Reader/s* you want to log for. One of the great features of Beanstack is the ability for the *Account Creator* to log the same book for multiple *Readers*. Also, if a *Reader* is enrolled in multiple reading challenges, any book logged will be registered in the multiple challenges. We love this feature!

Beanstack Tracker App

13. You will then be prompted to select the method for logging your reading. Another cool feature is the ability to scan the book's barcode (ISBN).

14. The [Log](#) icon will give you an overview of what you have logged in the reading challenge. Tabs include: Recent, Completed, Badges (Earned), Reviews (submitted) & Highlights.
